

# KYOTO UNIVERSITY

Offers...

- ✔ Undergraduate
- ✔ English-taught
- ✔ Civil Engineering program

Come and Join us!

Civil engineers play important roles in improving the quality of life in our society. The technology and knowledge in civil engineers have contributed to hazard mitigation, design, construction and maintenance of infrastructure.

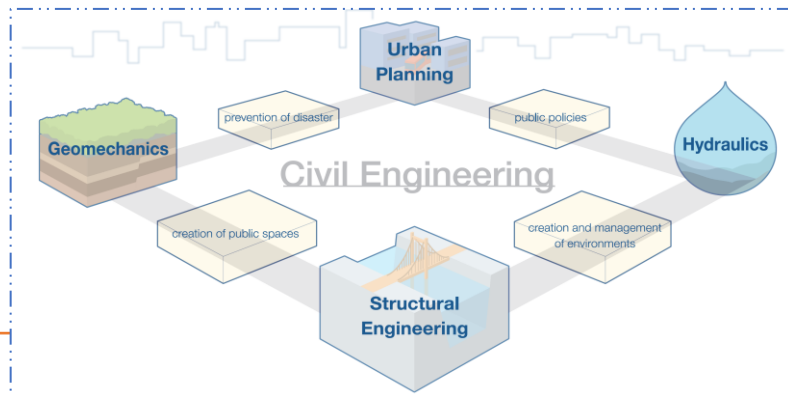

Civil engineering is not limited to construction-related work. From smart infrastructure to data-driven urban planning, the field is evolving rapidly and offers exciting opportunities at the intersection of traditional engineering and innovative technologies like AI and big data.

**Pre-arrival admission**; No need to come to Japan before enrollment.

**Application starts from:**

**August, 2026**

**Enrollment: April 2027**

## Selection Criteria

**Step 1** [August]: **Eligibility Screening**
