Kyoto University

Notice of Changes Regarding the Admission Process -1
[The Change of the Schedule and Requirement] [From 2026 intake Onwards]

The International Course Program of Civil Engineering has decided to make two changes listed below for the 2026 intake onwards. Please make sure to pay attention to the changes if you plan to apply to our program.

1 The preliminary eligibility screening will be mandatory for ALL applicants.

New	Old
Before application, all applicants must undergo the preliminary eligibility screening. Only those whose eligibility are confirmed can proceed to the application.	Applicants who does not fall into any eligibility requirements listed in the guidelines or who are not sure about their eligibility have to undergo the preliminary verification in advance to the application.
Preliminary eligibility screening Early to Mid-August Announcement of the result of eligibility screening Early September Application period Early to Mid-September	Preliminary verification period Mid-June to Early July Announcement of the result of eligibility screening Late July Application period Mid-August to early September

2 The submission of the English test scores may be exempted for those who meets conditions.

New	Old
Applicants who have/will have spent at least five years at school(s) where all lectures and classes (except for language classes) were conducted in English to complete their secondary education may submit an official letter or Form D * instead of an English proficiency test result. *Format will be instructed in the Guidelines.	All applicants including native English speakers must submit the score of designated English proficiency test.
